FIRKA DEVELOPMENT DEPARTMENT

G.O. Ms. No. 962 Dated 18-10-1949.

O R D E R:

The Provincial Harijan Welfare Committee has briefly reviewed the system of running separate schools for Harijan children and recommended that separate schools for Harijan may continue, since all restrictions on the admission of children of other communities into these schools have now been removed. Certain members of the Committee have, however, dissented from this view, and have pleaded for the early abolition of these separate schools for Harijans. The Committee has also recommended that the supply of free-mid-day meals to Harijan children should be continued in those schools. The Government have considered the above recommendations and the agree that separate schools should be run by the Harijan Welfare Department for the Harijan pupils and that the supply of mid-day meals in them should be continued as before.
